

## 6. Young people on the labour market

(supplementary questionnaire of the Labour Market Survey, Q2, 2016)

A supplementary survey called "Young People on the Labour Market" was linked again to the Labour Force Survey, Q2 2016 which was carried out on the selected sample of households of the basic survey at the same time.

The aim of the survey was the cognition of the labour market situation of young people, and the target group was 15–34 years old population. From the results we can informed about the previous school studies of the age group, the unfinished studies, the jobs undertaken during the studies and the characteristics of the working and undertaking work of the affected population.

1.5% of the respondents aged 15–34 who answered the basic survey did not answer the supplementary survey Q2 2016.

**The non-performance rates (rates of those who answered the basic survey but did not answer the supplementary survey) of the supplementary survey "Young people on the labour market", Q2 2016 (weighted data)**

Denomination	It concerns the respondent			Non-performance rate

There may be some differences between the same aggregates of the published absolute numbers due to weighting and summing up. The evaluation of the distribution ratios was made electronically – without individual correction, so the sum of partial data is not always equal to the displayed rounded value of the aggregated data.

The **questionnaire** contained the following questions.

**The weighted data and sample size of the questions related to  
"Young people on the labour market", Q2 2016.**
